

## **Sigma Chi Lambda Omicron Donation Report 2023-2024**

Sigma Chi Lambda Omicron Chapter  
Southern Illinois University Carbondale

The Lambda Omicron Chapter of Sigma Chi at Southern Illinois University Carbondale is proud to present our 2023-2024 Donation Report. Our chapter remains committed to philanthropy and service, contributing to causes that align with our values and making a positive impact within our community. Over the past academic year, we have successfully raised and donated funds to several organizations, supporting cancer research, education, and fellow Greek organizations.

### **Total Donations: \$30,200+**

#### **Primary Beneficiary: Huntsman Cancer Institute**

As our primary philanthropic partner, the Huntsman Cancer Institute remains the focus of our fundraising efforts. This year, our chapter raised and donated a total of \$28,000+ to support cancer research and treatment.

- Fall 2023: \$5,000 contributed through various chapter-led efforts.
- Spring 2024: \$23,000 raised through our annual Derby Days event and other fundraising initiatives.

#### **Community and Greek Life Support**

In addition to our contributions to the Huntsman Cancer Institute, our chapter also extended financial support to local educational institutions and fellow Greek organizations, strengthening our ties within the community.

- Delta Zeta Sorority Philanthropy: \$500
- Sigma Kappa Sorority Philanthropy: \$500
- Thomas Elementary School Library (Carbondale, IL): \$1,200

#### **Impact and Future Goals**

Through our fundraising efforts, we have not only supported groundbreaking cancer research but also contributed to the enrichment of local education and the philanthropic endeavors of our fellow Greek organizations. Our chapter remains dedicated to increasing our philanthropic impact in the coming year by setting ambitious fundraising goals and fostering a culture of giving within our brotherhood.

We extend our deepest gratitude to our donors, community partners, and chapter members who made these contributions possible. Together, we are making a difference.

The Brothers of Sigma Chi Lambda Omicron
